" 'Qualified agricultural property' means unoccupied property and related buildings classified as agricultural, or other unoccupied property and related buildings located on that property devoted primarily to agricultural use...Related buildings include a residence occupied by a person employed in or actively involved in the agricultural use and who has not claimed a homestead exemption on other property. Property used for commercial storage, commercial processing, commercial distribution, commercial marketing, or commercial shipping operations or other commercial or industrial purposes is not qualified agricultural property. A parcel of property is devoted primarily to agricultural use only if more than 50% of the parcel's acreage is devoted to agricultural use. An owner shall not receive an exemption for that portion of the total state equalized valuation of the property that is used for a commercial or industrial purpose or that is a residence that is not a related building."

"Upon a transfer of ownership of property after 1994, the property's taxable value for the calendar year following the year of the transfer is the property's state equalized valuation for the calendar year following the transfer."

Section 211.27a. (6)

"...'[T]ransfer of ownership' means the conveyance of title to or a present interest in property, including the beneficial use of the property, the value of which is substantially equal to the value of the fee interest."

Section 211.27a. (7)(n)

An owner of qualified agricultural property shall inform a prospective buyer of that qualified agricultural property that the qualified agricultural property is subject to the recapture tax provided in the agricultural property recapture act, if the qualified agricultural property is converted by a change in use. If property ceases to be qualified agricultural property at any time after being transferred, all of the following shall occur:
